

Shubham Singh Walia

Senior Software Developer | Full-Stack Engineer

✉ walia4shubham@gmail.com 📞 +91 99885 88633  LinkedIn • GitHub • Portfolio 📍 Mohali, India

Professional Summary

Full-Stack Software Engineer with **5+ years of experience** building and scaling production-grade web applications using React.js, Node.js, Next.js, MongoDB, and PostgreSQL. Experienced in designing RESTful APIs, system integrations, performance optimization, and AWS-based deployments, with hands-on experience leading development teams and delivering complex production applications.

Professional Experience

- Senior Software Developer**, *Innovative Code Labs Pvt. Ltd.*
04/2025 - Present
- Delivered solutions across **10+ live projects** using MERN, Redux, Postgres, AWS, Sharetribe, Docker, Algolia, and Stripe.
 - Designed and developed complete backend systems from scratch, including APIs, integrations, and complex business logic.
 - Led a **five-member junior development team** for a Canadian project, providing technical direction and delivery support.
 - Collaborated in Agile teams through code reviews, sprint planning, and effective cross-functional communication.

- Software Developer**, *Innovative Code Labs Pvt. Ltd.*
04/2023 - 04/2025
- Developed and delivered scalable full-stack features using the **MERN stack**, ensuring stability and maintainable code.
 - Implemented authentication, advanced search, listing workflows, and **role-based access control (RBAC)**.
 - Resolved complex production issues and translated business requirements into reliable technical solutions.

- Software Engineer**, *Oriental Outsourcing Consultants (P) Ltd.*
01/2021 - 02/2023
- Built MERN-stack applications using **React.js, Redux, Express.js, Node.js, and MongoDB Atlas**.
 - Managed cloud database clusters and collaborated through Jira, Bitbucket, and modern development tools.

Education

- Master of Technology (M.Tech)**
2018 - 2020
B.Tech, Electronics and Communication Engineering,
Punjabi University, Patiala
2014 - 2018
School Education, *Kendriya Vidyalaya No. 2*

Projects

- Uruck**, *AI-Assisted Platform | Next.js, Node.js, Postgres*
- Developed full-stack features using **Next.js, Node.js, and Postgres**, leveraging **Claude and Cursor** to improve development efficiency.
 - Defined and managed team deadlines and project milestones, supporting effective coordination and timely delivery.
- ForteH**, *Marketplace | React.js, Node.js, MongoDB, Algolia, Stripe*
- Engineered end-to-end workflows with complex multi-step business logic, improving submission efficiency by **30%**.
 - Architected high-performance search with **Algolia**, improving speed and result relevance.
 - Optimized **RESTful APIs and MongoDB queries**, reducing load times and improving scalability.
- VendorTree**, *Vendor, Venue & Event Planning Marketplace | React.js, Node.js, MongoDB*
- Revived and delivered a scalable platform, restoring critical workflows and production stability.
 - Integrated payment gateways and robust webhook handling, improving transaction reliability.
 - Developed geolocation-based search and optimized filtering, improving user experience by **40%** and reducing response time by **35%**.

Technical Skills

- Languages:** JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Responsive UI Development
Backend: Node.js, Express.js, RESTful APIs, Authentication & Authorization (JWT, RBAC)
Databases: MongoDB, Mongoose, PostgreSQL
Search & Integrations: Algolia, Sharetribe, SendGrid, Zapier, Cron Jobs, Cronofy, Nylas, Webhooks, Stripe, Razorpay
Tools & Platforms: Git, GitHub, Postman, VS Code, NPM, Jira, Bitbucket
Cloud & DevOps: Familiar With Docker, CI/CD, AWS
Development Practices: Agile, Scrum, Performance Optimization, Debugging, System Design
AI-Assisted Development: Generative AI, Claude, Cursor, Windsurf
